LIONA ENTERPRISES

CAPABILITIES STATEMENT

NON-CORE INFORMATION TECHNOLOGY

Non-Core Information Technology (IT) support services include:

- Asset Management
- Database Administration
- Cybersecurity/Information Assurance (IA)
- IT Administration
- Printer Management

Asset Management ensures government hardware and software is properly maintained and inventoried on an annual basis. Tracking all accountable Sensitive/Non-Sensitive IT assets and all non-accountable items is a necessity for business security.

Database Administration establishes new databases and/or maintenance and modification of existing databases. The standardization of databases provides consistency within a business and allows improvement for supporting business missions.

Cybersecurity/Information Assurance (IA) promotes continuous security, operational availability, and reliability of IT systems and equipment supporting the business. Assuring agency information by managing risks involved with storing and transmitting data by incorporating various protection, detection, and reaction protocols as well as implementing cybersecurity policies and procedures is the best way to ensure the safety of your businesses data.

IT Administration provides administrative support, management, and maintenance of account requests, telephone control, personal wireless communication service, task management tool (TMT), and management of internal control toolset (MICT).

Printer Management is the maintenance of local and network printers.

CUSTOMERS

LAAFB LAUNCH ENTERPRISE

Launch Enterprise (LE) Directorate of Non-Core IT Support

This effort covers Non-Core Information Technology Support for SMC/LE. The Non-Core Information Technology Support required includes Database Administration, Information Assurance, Asset Management and Equipment Custodian services to track hardware, software and software licenses, IT planning and budgeting. SMC/LE supports approximately 450 local and offsite users of the military, civilian, Federally Funded Research and Development Center (FFRDC) and contractor work force.

LAAFB IMS
