

## **Liona Enterprises, AtomRain, and IG DIGITAL Form Strategic Teaming Partnership for IRS DAIS 2.0 five-year, \$700 million BPA**

**Cincinnati, OH — January 21, 2025** — Liona Enterprises, Inc., AtomRain, Inc., and IG DIGITAL are thrilled to announce their strategic teaming partnership, having secured the prestigious IRS DAIS 2.0 BPA contract. As the prime contractor, Liona Enterprises spearheads this collaboration, underscoring the combined strengths and complementary expertise of these industry leaders. This partnership marks a pivotal milestone in their joint efforts to drive innovation and excellence in support of the IRS.

The DAIS 2.0 award highlights the seamless integration of each company's core competencies, building on AtomRain's past success in supporting the IRS's innovative knowledge graph analytics platform and many of the original DAIS BPA task orders. Since 2018, AtomRain has been a trusted partner at the IRS, renowned for delivering cutting-edge technology solutions through high-integrity work, engineering excellence and a commitment to adopting emerging technologies such as combining graph and AI technologies.

### **Future Prospects and Collaborative Efforts**

This successful collaboration establishes a robust foundation for future opportunities. By leveraging their complementary skills, the team is ideally positioned to deliver exceptional results under the DAIS 2.0 BPA, benefiting all stakeholders. This partnership is committed to advancing the IRS's mission while fostering innovation and excellence.

### **Insights from Leadership**

"Partnering with Liona Enterprises and Atom Rain under the IRS DAIS 2.0 Blanket Purchase Agreement is an exhilarating opportunity for IG DIGITAL. This BPA award underscores the strength of our collaboration and our shared dedication to innovation, efficiency, and advancing human-centered AI initiatives. Together, we are poised to deliver transformative solutions that drive mission-critical programs and create lasting impacts for the IRS and its stakeholders," stated Jose Carlos Linares, CEO of IG DIGITAL.

"We are honored to lead this vital venture as the prime contractor, collaborating with Atom Rain and IG DIGITAL. Our combined expertise and shared vision for innovation will undoubtedly lead to transformative outcomes for the IRS. This partnership exemplifies our commitment to delivering high-quality, secure IT solutions that meet the evolving needs of federal agencies," expressed Michelle Morales-Denisoff, CEO of Liona Enterprises, Inc.

"I'm thrilled most for what this award means for our team at IRS. Their integrity, quality, and consistency have gained the trust and respect of those we work alongside at IRS, and this DAIS 2.0 award is an incredible recognition of that. I'm grateful to lead such an amazing

team. Their unwavering dedication to the mission, commitment to upholding best practices, and ability to align innovative solutions with IT security policies have been key enablers of innovation and will play a crucial role as we build on the foundation, they have laid to support further the IRS's mission to modernize and enhance its data, analytics and taxpayer service capabilities. We look forward to driving impactful change and delivering exceptional results through this collaboration with Liona Enterprises and IG DIGITAL," remarked Benjamin Nussbaum, CTO of AtomRain, Inc.
